EXPERIENCE

Junior Developer

[Fearless+](#) | Remote | March 22– Now

Fearless is an organization that helps students find work and volunteer opportunities.

- I developed and maintained organization's web application, in JavaScript, HTML and CSS.
- I created program requirements for developers working on developing the digital platform.
- I conducted code, user experience and user interface testing

Part Time Web Developer

[Pangea](#) | Remote | February 2022 – January 2023

Pangea is an organization that provides freelancing opportunities to students in various industries.

- I designed, developed and maintained web applications for a number of clients.
- I completed most of my work from scratch in React or Bootstrap templates.
- I assisted clients in hosting their websites.

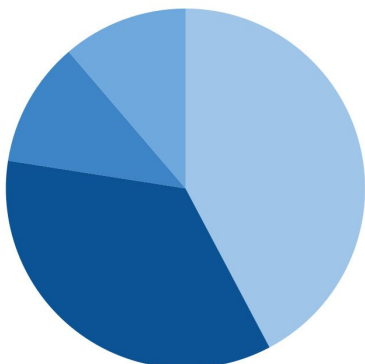

Founder and Leader of WCI Web Development

[Waterloo Collegiate Institute](#) | Remote | September 2021 – Now

- I founded a club where students could learn about the essentials of web development such as HTML, CSS and JavaScript, and have the opportunity to work on projects where they can apply their knowledge and skills.
- My club and I have built a web application with access to our school's extracurriculars.

HOW I STRUCTURE MY TIME

● School ● Studying ● Personal Projects ● Clubs and Extracurriculars

MY OBJECTIVES

I am a student who is passionate about web and software development and is interested in finding ways to use technology to leave an impact on society.

MOST PROUD OF

Organizer of UA Tutoring | 100+ students

I have led and developed a tutoring program that enabled Ukrainian students to receive academic support from volunteer tutors, online.

WCI Extracurriculars Website | 10+ members

I was in charge of leading a team of 10 students to create a web application featuring all of my school's extracurriculars, from scratch.

Research Assistant | McMaster University

I worked at McMaster Lab to research the effects of hypoxia on EPA-treated chicken fibroblasts.
